Early Advance Looked for in Prices of Wheat and Eggs-Fish Plentiful.

The local market is just now experencing the limit of duliness, which attends the season following Thanksgiving and prior to the activity which comes in anticipation of Christmas. Business is too slack for the production of features. No price change in any line was reported yesterday and there were no new arrivals of note. Wheat is becoming scarcer every day and an early advance in both wheat and flour is anticipated. A raise in eggs is also expected in a few days, in sympathy with the Eastern market. The presence on the market of quite large quantities of eggs purchased before the advance came in the East has delayed briefly the advance here. About the only activity yesterday was in the fish market, which was well supplied with all standard varieties.

Wholesale Quotations. and prior to the activity which comes in

#### Dun's Trade Review for Week.

Dun's Trade Review for Week.

NEW YORK, Dec. 3.—Dun's weekly review of trade tomorrow will say:

Wall street's severe reaction was not due to any setback in the commercial world, all measures of legitimate traits showing wholesome progress, and confidence in the future is unshaken. Eailway earnings in November averaged 9.2 per cent greater than in the same month of 1903, and the distribution of merchandiss is sufficiently heavy to produce treight blockades at several points. Manufacturing plants report increased outputs in almost every instance except where inadequate water supply proves a temporary interruption. Seasonable weather has stimulated retail trade in wearing apparel and holiday goods are in great demand. Foreign commerce at this port for the last week shows a gain of \$1029,971 in exports, as compared with the same week last year, while imports increased \$2,085,591. Strength continues in the hide market.

Moderate offerings of foreign dry hides
are readily absorbed at further fractional

#### Chicago Grain.

Chicago Grain.

CHICAGO, Dec. 9—The wheat market was largely swayed by the leadership of a few strong interests, nearly every influential transaction being credited to a house with Eastern connections or to prominent local leaders. Traders at the outset seemed inclined to favor the bear side. Cables reported Argentine weather fine and harvest progressing favorably. May quotations showed an initial loss of its to its, at it its, to it, and with free offerings there was a further recession to \$1.10%. The selling tendency was furthered by rain and show in the Southwest and by a heavy run of wheat at Minneapolis and Duluth. In the face of this bearishness, however, prices rallied on buying said to be for short account, advancing to \$1.11%. The strength was only temporary, however, and was followed by another break, May touching \$1.0%. It gradually worked up again to \$1.11%, closing firm, with May is lower, at \$1.11.

The feature in corn was the alarm that appeared to have selzed December shorts. The close was firm, with May is lower, at \$1.11.

Oats were a shade firmer with corn. May closed its up a strong with a good general demand. May pork is up 15c; lard gained 7%c and ribs 50 the.

New York Stock Letter. NEW YORK-Dick Bros.-National City bank announced \$500,000 gold for import from Paris.

NEW YORK-Walker Stock Letter-frie bank statement should be a good one as far as a reduction in loans is con-erned. Talk is builish.

cerned. Talk is bullish.

James A. Pollock & Co., bankers and brokers, 6 West Second South street, furnish the following stock letter and gossip received over their private wire.

NEW YORK, Dec. 9.—Logan and Bryan Stock Letter—After some little hesitation and weakness at the opening the market is closing strong at best prices of the day. The action of the market after the violent break in the last two sessions is encouraging, and would indicate that the worst is over for a time, at least. We are, however, approaching the holiday senson, and the first of the new year, which always makes dull and unsettlement in the market, and we doubt very much if the market will do much in the way of sustained advance at this time. It will take some little while to get over the shock we have received.

NEW YORK—Dick Bros. stock Letter—

NEW YORK—Dick Bros. stock Letter—The declaration of dividend on S. P. Preferred at the rate of 7 per cent per annum was a good influence. Sentiment was also helped by an augustement of gold for import and the cancellation of some export arrangements. Much was made of rumors that the Gould-Cassitt quarrel had been settled. The market was strongest in the last hour, and closed practically at the top.

NEW YORK-T. A. McIntyre and Co. Stock Letter-We noticed exceptionally

## Gold Dollars at 75 Cents.

Fernaps no similar break in the history of trading has been followed with so complete a resumption of confidence as the one which took place yesterday. The afternoon market developed so good a tone as to tend further encouragement to the belief that no apprehension need exist endangering the immediate future. The amountement of further shipments of gold should carry no special shipments of gold should carry no special weight in connection with the money situation, as the gain from the interior promises to be very large, and above all money continues plentiful. We expect, however, rather more fiexible trading conditions, and notwithstanding our full belief in the market stability, we suggest long operations only on recessions in values and from among the most active of the list.

of the list.

NEW YORK-Hutton Stock Letter-The heavy buying of good railroad stocks and the Issues today by important interests was a favorable influence on the general market, and we can only feel in looking back the past two days that heavy decline made through the list was done to uncover a large line of speculative accounts that had been pyramided for months and showed heavy paper profits. There seems little doubt now that some heavy lines of stocks were being carried this way, and that the public were in the market more than supposed. This factor by liself made the position of banks untenable, and especially at this particular time of the year, when banking institutions require all their available cash for the January disbursements. The general business situation was never stronger or the outlook brighter for industrials during the coming year, and these securities must enloy much higher values in 1905.

NEW YORK-Summary-Americans in

NEW YORK-Summary-Americans in London heavy, ½ to ½ per cent below parity. Tribune reports John McDonald has bought large interests in Met. securities. R.
